## **Previous Employment**

1. Mechanic at Riverside Engineering a classic car garage, starting from an apprentice (2004-2009). Taking part in problem solving and completion of tasks on vintage cars to a high standard. Maintaining a clean, efficient and organised work place.
2. Bar worker at Mezzaluna night club (2008-2009). Delivering as a customer facing role in a fast paced and busy night club.
3. Bar worker and waiter at The Ryles Arms (2009). Being responsible for a bar in a local pub/restaurant. Delivering a friendly face for locals to talk with and good hospitality for customers visiting from further afield.
4. AWCC (2010-2015). During my time at AWCC I developed from general floor worker to a key holder, assisted in open a brand new high value facility registered as a centre of excellence, lead the coaching, maintenance, setting and group work

teams as well as carrying out regular mandatory life critical safety checks on all equipment used in the centre by both the public and staff members.

5. Esland Care (2015-2018) as a senior residential care worker. Working with young people in crisis situations using climbing and outdoor activities as a therapeutic vehicle. I purchased, logged and maintained all equipment associated with climbing and hill walking. Leading a team and making decisions on situations in line with the company's policies, recording this and communicating this with management teams and external agencies.
6. Astra Zeneca – (2018-2019)  
Validated on Groninger, Neri Labeller, Zebra printers, Check weigh, Colbalt Scanner, End-o-line, pallet trucks, line clearance, data checks, sampling and case taper. Proficient with SAP and PAS-X as well as a high level of general computer literacy. Taking part in pulse meeting and helping the line in line with SHE and GMP whilst working towards our norms.

## **Continued Personal Development**

1. Currently working towards online courses in computer programming using Python.
2. Building projects using a Raspberry Pi to help further my understanding of computers.
3. Undertake own fixing and maintenance of cars owned including replacement of brakes, EGR valves and cam belts.
4. Regular running and exercise routines.
5. Currently completing the equivalent of NVQ level 3 for the fire service to become a qualified fire fighter.
